

# K-TEC™

## 1230

The K-Tec 1230 is the lightest 30-yard scraper in its class, designed for maximum efficiency and strength. Its modular, bolt-together design streamlines maintenance and ensures consistent fleet compatibility, while sharing common wear parts with larger K-Tec models. With a heaped capacity of 30 cubic yards / 22.9 cubic meters and nearly 10,000 lb / 4,500 kg less weight than the competition, the 1230 delivers faster loading, reduced fuel consumption, and lower cost per yard moved on any job site.

### Minimal Maintenance

Grease-less bushings and only 6 grease points.

### High Tensile Steel

Hardox / Wieldox steel technology makes stronger and lighter scrapers.

### 74/26 Weight Transfer

The hitch transfers 26% of the scraper's weight to the tractor for improved traction.

### Cushion Ride

Experience a smoother ride and reduce equipment wear.

### Shipping

Available for containerized international shipping.

### 3 Year Warranty

Industry leading 3 year structural / 1 year parts and labor warranty.
